

AKU training

Your specialist L&D training partner

Leadership & Management

Co-created, Customised Development Programmes

At AKU we work closely with you to co-create programmes that work in the context of your organisation

AKU approach

Through experience we know that real collaboration during the design process delivers true customisation and impactful development. We start with a blank page. Our facilitators/coaches meet with you to understand your organisational drivers, goals and leadership and management development needs.

Your leaders and managers will experience an insightful development journey through enhanced self-awareness; coaching support; facilitated guidance; peer learning; and reflection for outcomes focussed solutions.

AKU expertise and experience

Our leadership and management facilitators and coaches have extensive expertise. They have experience of working with CEOs, boards and senior and middle managers from local, national and global organisations. Working with large L&D consortiums, they bring a wealth of knowledge and expertise in the latest leadership and management developments from around the world.

The AKU team is actively working in partnership with public and private sector organisations to deliver impactful, custom programmes. Recent examples include NI Water, NI Judicial Appointments Commission, NI Housing Executive and Forth Communications.

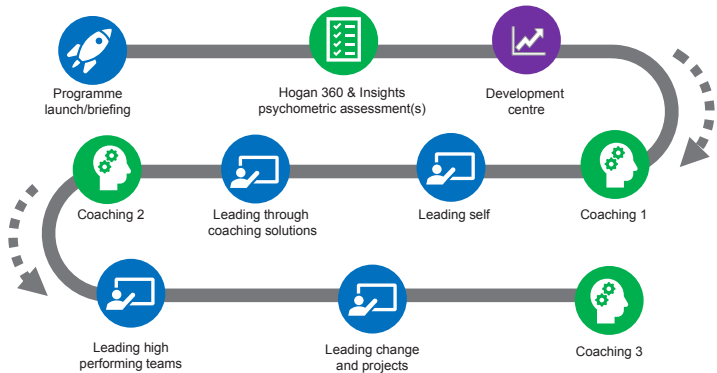

Your custom programme

At AKU we can draw upon our extensive portfolio of interventions. These can be delivered as off the shelf products, or tailored to focus development in particular areas.

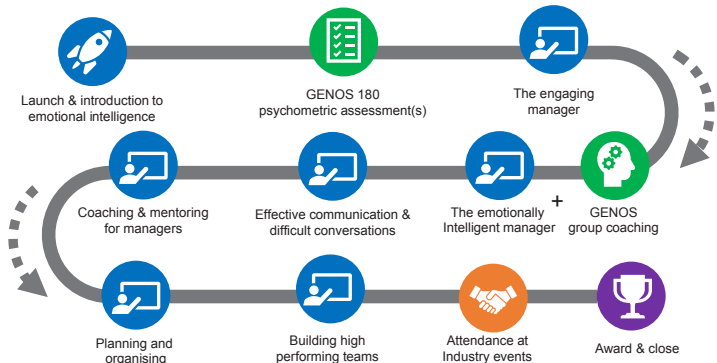

Each programme is unique; all elements are optional. You choose the elements that are relevant to your context, development needs and budget.

The roadmaps below provide examples of existing tailored programmes. They include all the elements that we offer for truly impactful leadership and management development.
